The ASEAN Economic Community (AEC) Chartbook intends to provide users with graphical information on important characteristics of the ASEAN economy as well as development trends and patterns of regional economic integration in ASEAN.

The AEC Chartbook provides a user-friendly narrative of the ASEAN economy – the general macroeconomic makeup and trends, the dynamics of trade and investment within ASEAN, and important developments in information and communication technology as well as its economic relations with major trade partner countries and regions and the rest of the world. It also pictures some general trends in the seven priority integration sectors for trade in goods in ASEAN.

I hope that this Chartbook will make it easier for everyone to understand and track the progress of economic integration towards the realisation of the AEC by 2015.

This ASEAN Economic Community (AEC) Chartbook is a visual chronicle of the ASEAN economy and its relations with major regions/partner countries and the rest of the world. It aims to provide information on the state of the ASEAN economy at some milestone years in the past and at present, and on discernible trends in key economic areas in the immediate future.

The graphical information in this Chartbook is presented according to the following 8 sections:

1. **ASEAN in the Global Economy** situates the region in the global economic community in terms of population and economic size, growth, and welfare.
2. **ASEAN Economy** looks into some macroeconomic trends and developments within the region.
3. **ASEAN Trade Liberalization** reports on the stages of facilitation for freer flow of goods within the region through tariff reduction.
4. **ASEAN Trade Performance** takes a closer look at the movement of goods within and outside of the region – trends of exports and imports, and composition and directions of trade.
5. **ASEAN Trade with Selected Trade Partners** charts the region’s trade position with selected dialogue partners and describes the concentration and dependencies of selected traded commodities.
6. **Investments in ASEAN** gives a broad time series profile of foreign direct investment inflow to the region, including the major sources of such investments.
7. **ASEAN Priority Integration Sectors** shows the trends of export of goods in the 7 priority sectors identified to help accelerate progress toward the AEC.
8. **Other Developments in the ASEAN Economic Community** presents information on other important elements that sustain the regional economy – export of energy, access to communication, and tourism activity.

The charts presented herein are based on data available in the various databases being maintained by the ASEAN Secretariat as submitted through relevant ASEAN working groups and/or data sharing schemes and/or as gathered from official publications and websites of data sources in the ASEAN Member States (AMSS) and international organizations as of 30 September 2010.

Some data were derived/estimated using basic statistical practices employed by the ASEAN Secretariat. Unless otherwise stated, these figures are in no way considered as official statistics, and are used only to give indicative information.

* CEPT - Common Effective Preferential Tariff

Source of data: ASEAN Tariff Database
The percentage of tariff lines in the CEPT inclusion list of CLMV have increased steadily, and progressively narrowed the gap between ASEAN6 and CLMV over the years. As of 2010, both ASEAN6 and CLMV have placed more than 99% of their tariff lines under the CEPT Scheme.

Note: For 2010, Cambodia use the ASEAN Harmonised Tariff Nomenclature (AHTN) 2002 while the others use AHTN 2007

* CEPT - Common Effective Preferential Tariff

Source of data: ASEAN Tariff Database
The number of items in the CEPT inclusion list with zero tariff in ASEAN6 increased significantly in 2003 and continued to increase until 2010. The growth in CLMV was more modest. In percentage terms, the growth in ASEAN6 showed a break in 2005 and 2006; but it was due to the rapid increase of the number of items in the CEPT IL.

Note: For 2010, Cambodia use the ASEAN Harmonised Tariff Nomenclature (AHTN) 2002 while the others use AHTN 2007
